The Science Transit Shuttle

Improving connectivity to Harwell Campus, Old Road Campus, JR Hospital and Wytham Field Station

The Science Transit Shuttle provides a frequent, express service connecting the Science Area and Central Oxford with Old Road Campus and the JR Hospital in Headington, Wytham Field Station and Harwell Science & Innovation Campus near Didcot.

The service enables academics, research staff, students and visitors to move quickly and conveniently to best make use of these cutting edge scientific and clinical research facilities, helping to spur interaction, investment and commercial innovation between the academic and business communities.

The service is made possible by funding from the University of Oxford and the Science & Technology Facilities Council.
